The **XI edition** of the **Euromeeting** international conference represents an important opportunity to bring forward the debate on the implementation of regional policies for a sustainable growth.

For the first time the conference will take place outside the national borders and it will be held in Brussels, on 13rd December.

We are proud to organise this event with the support of the “**Committee of the Regions**”, which has been one of the main promoter of competitive and sustainability tourism policies since the 2001’s edition.

This year, the conference program will focus on the financial opportunities offered by the full range of EU policies and spending programs in the cycle 2014–2020.

The final part of the conference will include the signature of a **Memorandum of Understanding, by Regions and stakeholders**, in order to support European Institutions in tourism policies and strengthen competitiveness in tourism sector in the programming cycle 2014–2020.

Looking forward to meet you on that occasion
